

# Velorum

The Velorum is an under shelf light specifically designed for retail slotted steel shelf units.

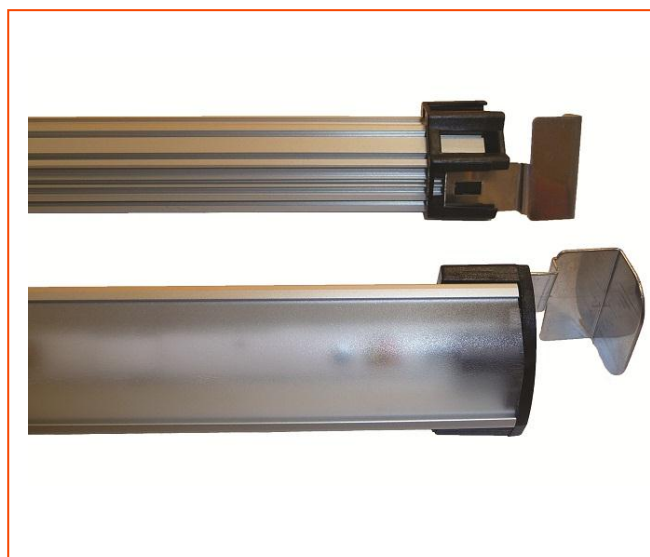

A low profile aluminium housing protects the custom designed LED strip which offers a 30% energy saving against T5 21w fluorescent tubes, typically used in this application.

Designed and manufactured for easy installation into existing units and compatible with most propriety supermarket shelving systems.

The Velorum luminaire can be supplied with a variety of power/cable combinations, allowing it to be simply retrofitted to existing shelving.

## Benefits

- Highly energy efficient
- 30% energy saving over T5 fluorescent lighting
- Full shelf width illumination; maximising merchandising potential
- 50,000 hours life
- Designed to fit retail slotted shelf units
- Adjustable hook-over ends for simple installation
- Virtually eradicates maintenance
- Massively reduces energy costs
- Designed and manufactured in the UK

## Features

Rated Life	50,000 hours @ 70% lumen maintenance
